Henschke Mount Edelstone Shiraz <i>Eden Valley</i>	12	70	270

Our Enomatic Wine Preservation system works to protect the quality and preserve the lifetime of open bottles of wine. The system creates a barrier between the wine and oxygen in the atmosphere by displacing it with Argon, one of the Noble gases.

Noble gases are colourless and odourless, with a very low reactivity, well suited to insulating the contents of open bottles from oxidation.

This allows us to showcase a range of premium quality wines to you, served by the glass. Because great food and great company is always better with great wine.

Half glass serves also available on request

Vintages are subject to change without notice

15% surcharge applies on public holidays
